THE
BRITISH
SCHOOL
OF AMSTERDAM

WELCOME

Families moving around the globe often have a lot to think about.

However, those lucky families arriving in Amsterdam know that they are coming to a city famous for its relaxed yet high quality of life.

It is therefore the best of both worlds when, as well as the quality of life, there is also a quality of learning for your children that is outstanding.

EDUCATION

CURRICULUM

The British School of Amsterdam is the only school in Amsterdam to offer the full British Curriculum. This Curriculum is acknowledged and accredited in all countries, thanks to its academic depth and breadth.

VALUES

As well as the curriculum itself there is an all-important element of British independent education that has to do with character, good manners and standards of behaviour. We believe, at The British School of Amsterdam that there is nothing old-fashioned about traditional values. And, future employers of our children also believe this to be true.

ONE HOME

Our wonderful new premises
on Havenstraat will be home
to all three schools.

As you would expect from a school offering this worldwide educational standard, we have a high quality of staff.

There is, however, much more to be said about our staff than their teaching abilities in the classroom. You want a school where the teachers know your child like you know your child – not just their name, but their hopes, their fears, their quirks, their enthusiasms.

PERSONAL

Here we are divided by age into three schools so that each remains a size that means every child will receive the individual attention they need from their teachers. Here, the contact between teachers and your child is central to the ethos of the school.

Please note that this is not simply in order to create a friendly atmosphere (although that is for sure what you will find here). It is because we know for certain that for children of all ages, before they can achieve, before they can perform, they need to be recognised for who they are – as an individual with their own set of talents and gifts. From the start, and from whatever point your child joins us, their education will take off.

RECOGNISED

EARLY YEARS
SCHOOL

JUNIOR
SCHOOL

SENIOR
SCHOOL

In recognising the individual, we also recognise the family. An excellent school is of great importance for the whole family because it forms a small group of like-minded people. The shared purpose amongst our families, from so many nations and from so many cultures, is a cause for joy and celebration.

All sorts of friendships, clubs and activities quickly start to develop between our families (and it does not matter at all that for many, English is not their first language). We work hard to create many opportunities for our families to meet and to get to know each other – Amsterdam works well that way.

FAMILY

We hope you will make the
most of this wonderful city.

Here, you can both live well and
learn well. And as your travels
around the world continue, don't
forget that, for your children, the
steps taken at school age often
define a whole life's journey.
